MATERIAL DETAILS

ELEVENT

The ELEVENT membranes are specifically built to beat the elements, with breathability and ventilation always a priority in combination with waterpillar. The basic ELEVENT membrane offers 8 000 mm waterpillar and 10 000 g/m² breathability. The Mid level ELEVENT 20K offers 20 000 mm waterpillar and 20 000 g/m² breathability. The Top level membrane ELEVENT 30K has a waterpillar of a whopping 30 000 mm, while the breathability are 20 000 g/m².

SuperFabric® technology starts with a fabric and overlays it with tiny plates ("guard plates") in a specific arrangement. The gaps between guard plates allow complete flexibility. The geometry, thickness, and size of the guard plates, as well as the fabric, can be varied depending on the desired attributes. SuperFabric® materials are designed to deliver a range of performance features such as abrasion resistance, stain resistance, quick drying, weight reduction and more.

SKIN FIT

A technology used to secure glove linings. Where used the lining will remain firmly attached and not follow your hand when removed.

INNOBORNE The Optimal Insulation 100% OLEFIN An insulating material capable of retaining heat longer than even wool yet is light weight, quick drying and transports moisture efficiently away from the body. Consist of 100% Olefin / Polypropylene.

NUDUD is a new innovative high precision "touchscreen solution" that allows you to keep your gloves on in all situations, both on and off your motorcycle/snowmobile. The precision is second to none. Find more information at nudud.se

VERTIGO MIPS HELMET

Do you want to take your riding to the next level?

Then it will involve a lot of risks where you need a helmet with that "little extra" when it comes to safety. AMOQ Vertigo is developed in a close collaboration with the company MIPS, which is the world-leader in Brain Protection Systems for helmets, which minimizes the risk of concussions. In addition to the fantastic MIPS system, this helmet has a very comfortable premium interior, which works great as for both motocross and snowmobiling. The shell has an aerodynamic shape and is adapted for your goggles to be in place no matter how hard you ride. The interior is of course removable and can be easily washed in the washing machine. The ventilation is large enough at the back so that the heat is effectively ventilated out, but without making the helmet too cold during the winter.

AMOQ Void is definitely the most interesting monosuit of the season for all sled enthusiasts! A perfect entry-level monosuit for both trail riding lovers and deep snow adrenaline junkies. The shell construction allows you to choose level of warmth by yourself, by adding extra layers of clothing underneath. This makes the monosuit more usable and can be used both during those cold days and during the warmer spring riding days.

AMC

The thigh-high zippers on the legs makes it easier to take your snowmobile boots on and off, as well as they also can act as ventilation zippers if opened from the top. Thanks to its unique price-quality ratio, AMOQ Void is definitely one of the most wanted products of the season!

ECLIPSE MONOSUIT

The AMOQ Eclipse Monosuit is the obvious choice for the backcountry rider who sets high standards.

The lightweight shell construction of this monosuit are made of the material 300D Nylon Canvas. This material provides the durability required for aggressive treeriding, but without compromising the flexibility you need to be able to take your riding to the next level. In exposed areas, the Eclipse are provided with a reinforcement material that can withstand today's sharp runningboards if mistakes should occur. The windproof and water-repellent membrane "ELEVENT 20K" is coated to the outer fabric, which gives a very flexible feeling during both trail and backcountry riding. To maximize airflow and ensure that moist is being ventilated, this monosuit have also been fitted with dual ventilation channels in the back area.

AMOQ R A C I N G

We asked ourselves; How do we make the best possible snowcross clothing? The answer was easy.

In racing it is all about small margins, from starting line to finish line. Because of that we have been testing our gear properly together with best snowcross teams in Finland. We are of course super proud of this partnership and we can with confidence say these products really works in reality, not just in a testing facility.

SNOWCROSS JACKET

Comfortable snowcross jacket for the rider who wants to be number one on the podium. AMOQ Snowcross jacket is made of a nice softshell material that is super flexible, which allows maximum movement on the snowmobile. The material is both windproof and water-repellent, with breathability remained. On the left hand sleeve, you have a pocket for the timecard. Sponsor friendly design which allows you to print your own logos on the jacket.

SNOWMOBILE SOCKS

These socks are designed with only one thing in mind; Snowmobiling. The AMOQ snowmobile socks are made of 100% moisture-wicking polyester, that is stitched in a way which will allow moisture and sweat to get away from your feet. This stitching method allows you to keep warm from morning to evening when riding snowmobile. You have thicker material under the foot (where sweat comes from) and thinner material with more ventilation on top (where the heat goes).
