UNLIMITED PASSION

– GET READY FOR THE ADVENTURE OF YOUR LIFE!

The stunning colours, blackest black and highly finished details combined with great technical materials take your adventure to a completely new level! Founded in 2021 AMOQ is active, fast and full of excitement. The brand is inspired by a passion for snow and snow activities. Sunny frosty days in the rocky mountains, the northern lights and the call of powder snow.

Products combine comfort and style in the best possible way. Whether you're riding a snowmobile, scaling mountains, going skiing, snowboarding or just exploring the city life AMOQ keeps you looking stylish and feeling comfortable in all conditions. The versatile collection includes helmets, goggles, monosuits, jackets, pants and gloves for men and women.

High-quality products are equipped with the best technical features which you can rely on in all kinds of weather conditions. The unique price-quality ratio of the collection makes quality and fashionable products available for all. Whether you are an enthusiast or a professional, you'll find the most stylish products in the AMOQ collection, which are always in line with the hottest trends of the season. Be brave, live in the moment and prepare yourself for possibly the best day ever with your brand new AMOQ product!

MATERIAL DETAILS

ELEVENT

The ELEVENT membranes are specifically developed to beat the elements, with breathability and ventilation always a priority in combination with waterpillar. The basic ELEVENT membrane offers 10 000 mm waterpillar and 10 000 g/m² breathability. The Mid level ELEVENT membranes, 15K and 20K, offer 15 000mm and 20 000 mm waterpillars resp. 15 000g/m² and 20 000 g/m² breathability. The top level membrane ELEVENT 30K has a waterpillar of a whopping 30 000 mm, while the breathability is 20 000 g/m².

SuperFabric®

SuperFabric® technology starts with a fabric and overlays it with tiny plates ("guard plates") in a specific arrangement. The gaps between guard plates allow complete flexibility. The geometry, thickness, and size of the guard plates, as well as the fabric, can be varied depending on the desired attributes. SuperFabric® materials are designed to deliver a range of performance features such as abrasion resistance, stain resistance, quick drying, weight reduction and more.

SKIN FIT

A technology used to secure glove linings. Where used the lining will remain firmly attached and not follow your hand when removed.

INNOBORNE The Optimal Insulation 100% OLEFIN

An insulating material capable of retaining heat longer than even wool yet is light weight, quick drying and transports moisture efficiently away from the body. Consist of 100% Olefin / Polypropylene.

NUDUD is a new innovative high precision "touchscreen solution" that allows you to keep your gloves on in all situations, both on and off your motorcycle/snowmobile. The precision is second to none. Find more information at nudud.se

HELMETS

FRICTION MIPS CARBON

Time to level up with our brand-new Friction MIPS Carbon helmet!

The Friction MIPS Carbon helmet offers ground-breaking performance and extremely low weight combined with awesome looks and high-class comfort. A design masterpiece made of high-performance carbon, with a weight of just 950g in size Medium. The ventilation channels are designed to offer perfect cooling in the summer, without getting too cold in the winter. To keep you safe in all situations, we have equipped the Friction helmets with a MIPS® Brain Protection System (BPS), which is a class-leading protection feature that helps prevent rotational related injuries such as concussions. This is probably one of the best helmets on the market at this price point.

- > D-RING BUCKLE
- > WASHABLE INTERIOR
- > CARBON FIBRE OUTER SHELL
- > LOW WEIGHT = SAVE ENERGY
- > ECE 22.06 APPROVED
- > 950G +/- 50G (MEDIUM)
- > MIPS® BRAIN PROTECTION SYSTEM
- > PREPARED FOR A BREATH BOX TO BE MOUNTED
- > REMOVABLE BREATH BOX INCLUDED

AIRFRAME HELMET

Ground-breaking performance and nice look at a very competitive price.

AMOQ Airframe is an extremely competitive and comfortable helmet, which works great for both motocross and snowmobile riding. The shell has a super aerodynamic shape, which makes it stable in high speed. The shell itself are made of thermoplastic, which contributes to a low weight, but without compromising any safety features. The high quality interior is detachable and can easily be washed in a washing machine.

- > AERODYNAMIC
- > WEIGHT: 1280G +/- 50G
- > GREAT VENTILATION
- > BUCKLE: DOUBLE D-RINGS
- > DETACHABLE AND WASHABLE INSIDE
- > APPROVED ACCORDING TO ECE 22.06
- > SHELL MADE OF THERMOPLASTIC (ABS)

VISION VENT + SNOWMOBILE GOGGLES

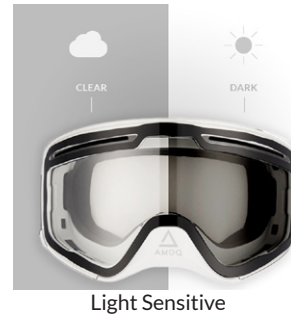

Take your riding to the next level with the frameless AMOQ Vision snowmobile goggles.

The Vision goggles comes with flexible and comfortable frame together with a magnetic lens technology as standard. This allows you to quickly change your lens when you are out riding and the weather changes. The Vision goggles also features a triple density foam where the inner layer is shock absorbing and the outer is moisture-wicking. To really make sure you don't get fog in your vision, the Vision goggles is equipped with a Vent+ dual lens type which allows a high airflow for maximum sight. A highly competitive goggle that have passed rough testing deeply in the Scandinavian forests with the highest degree!

VOID V2 MONOSUIT

The second-generation VOID comes with an improved outer fabric with laminated membrane and higher WP than its previous version.

A perfect entry-level monosuit for both trail riding lovers and deep snow adrenaline junkies. The shell construction allows you to choose the level of warmth by yourself, by adding extra layers of clothing underneath. This makes the monosuit more versatile when it can be used both during those cold winter weeks and warmer spring riding days. The thigh-high legs zippers make it easier to take your snowmobile boots on and off. They can also act as ventilation zippers as they open from both top and bottom. Probably the best product currently on the market in this price segment.

ECLIPSE V2 MONOSUIT 20K

The ECLIPSE V2 Monosuit is the obvious choice for the backcountry rider who sets high standards and prefers an aggressive design.

The lightweight shell construction of ECLIPSE V2 is made of the 300D Nylon Canvas material. Together with the YKK Aquaguard front zipper, this material provides the durability required for aggressive tree riding without compromising on flexibility and comfort. Exposed areas are equipped with reinforcement fabric. The wind- and waterproof membrane "ELEVENT 20K" is coated to the outer fabric, which gives it a very flexible feeling during both trail and backcountry riding. To maximize airflow and breathability, the ECLIPSE V2 has also been fitted with ventilation zips in the armpit areas and dual ventilation channels in the back. In short, the ECLIPSE V2 is a very good monosuit that gives you extremely good value for your money.

FLEX MONOSUIT

The FLEX monosuit is made to be the smoothest and most comfortable monosuit in our range. This is achieved with a laminated Ribtex outer fabric that offer exceptional four-way stretch.

The FLEX monosuit is the ideal choice for avid snowmobilers who prioritize an active riding style and seek uncompromised progression. Designed to efficiently manage moisture, the FLEX features strategic ventilation zippers in the armpits and thighs. Additionally, the elbows, knees and shins are reinforced to withstand a wide range of stress. The laser-cut breathing holes in the collar can, in addition to being a nice detail, be used in bad weather as a face mask. Being an uninsulated shell model, the FLEX allows for adaptive dressing based on the temperature of the day, making it a versatile model from autumn to spring for both dynamic trail riding and intense backcountry expeditions!

FLEX LIGHT MONOSUIT

The FLEX LIGHT MONOSUIT is a lighter version of our popular FLEX MONOSUIT. It is probably the smoothest and most comfortable monosuit in our collection thanks to the Ribtex outer fabric with stretch.

The FLEX LIGHT monosuit is the ideal choice for avid snowmobilers who prioritize an active riding style and seek uncompromised progression. Designed to efficiently manage moisture, the FLEX LIGHT features long ventilation zippers both in the front and the back. The cargo pockets on the thighs also feature a smart ventilation construction. Additionally, the elbows, knees and shoulders are reinforced with our brand new, light and strong ANTIRUB fabric. The laser-cut breathing holes in the collar can, in addition to being a nice detail, be used in bad weather as a face mask. Apart from the upper body that has a light 60g insulation, the FLEX LIGHT is a shell model that allows for adaptive dressing based on the temperature of the day, making it a versatile model from autumn to spring for both dynamic trail riding and intense backcountry expeditions!

- > OUTER FABRIC IN RIBTEX LIGHT FABRIC

ROCKET V2 MONOSUIT 30K

The brand-new ROCKET V2 monosuit offers more than any other competitor in the same price range.

The lightweight shell construction of ROCKET V2 is made of the 300D Nylon Canvas material. Together with the YKK Aquaguard front zipper, this material provides the durability required for aggressive tree riding without compromising on flexibility and comfort. The "ELEVENT 30K" membrane has an incredible WP of 30,000 mm. One of the strongest reinforcement materials on the market, SuperFabric® has been used in exposed areas. To maximize airflow and ensure that moisture is ventilated, the monosuit has dual ventilation zippers at the back which can be closed during the coldest days. The laser-cut breathing holes in the collar can, in addition to being a nice detail, be used in bad weather like a face mask.

VERNAL V2 JACKET

AMOO Vernal stands for flexibility, warmth and comfort-all the features needed for a wonderful day on the trails.

The Vernal V2 jacket is the ultimate choice for the rider with a calmer riding style and that is looking for a warm and comfortable snowmobile experience. The Startex fabric with a water column of 10 000 mm keeps water out, while the 8 000 g/m²/24h breathability contributes to good comfort. The jacket also has a detachable hood, comfortable lycra cuffs with thumbgrip and ventilation zips in the sides, stretching all the way from the front to the back. Furthermore, the Vernal V2 comes with a detachable insulated inner jacket that also can be worn separately-you basically get two jackets for the price of one!

ASPECT JACKET

Aspect, our best snowmobile jacket to date in terms of technical specifications. The jacket's design has been inspired by alpine skiing, with straight and symmetrical lines.

The lightweight shell construction is made in 300D Nylon Canvas, which is a both flexible and durable fabric. This material provides the durability required for aggressive forest riding but without sacrificing the mobility you need to take your riding to the next level. A lightweight and flexible reinforcement material has been used on exposed areas such as the elbows. The water column in the "ELEVENT 30K" membrane is an incredible 30,000 mm. This membrane is coated against the outer fabric, which gives it a very flexible feeling during both trail- and freeriding. To maximize the airflow and ensure moisture wicking, the jacket has also been equipped with double ventilation channels in the back and ventilation zippers in the armpits.

AMOO

RACING

We asked ourselves; How do we make the best possible snowcross clothing? The answer was easy.

In racing it is all about small margins, from starting line to finish line. Because of that we have been testing our gear properly together with best snowcross teams in Finland. We are of course super proud of this partnership and we can with confidence say these products really work in reality, not just in a testing facility.

APEX RACING PIT COAT

The perfect pit coat for all occasions.

Whether you need it for pure racing or to have something quick to put on when you fuel up your snowmobile at the mountain cabin, the APEX RACING PIT COAT with membrane, sealed seams and 200g insulation will do it for you! One of the absolute best products in our portfolio, in terms of versatility and value for money.

WOMENS OUTERWEAR

VOID V2 W'S MONOSUIT

The second-generation VOID comes with an improved outer fabric with laminated membrane and higher WP than its previous version.

A perfect entry-level monosuit for both trail riding lovers and deep snow adrenaline junkies. The shell construction allows you to choose the level of warmth by yourself, by adding extra layers of clothing underneath. This makes the monosuit more versatile when it can be used both during those cold winter weeks and warmer spring riding days. The thigh-high legs zippers make it easier to take your snowmobile boots on and off. They can also act as ventilation zippers as they open from both top and bottom. Probably the best product currently on the market in this price segment.

- > LAMINATED 300D POLYESTER FABRIC
- > 10 000 MM WATERPILLAR
- > 10 000 G/M2 BREATHABILITY
- > SEALED SEAMS
- > THIGH HIGH ZIPPERS IN THE LEGS

ECLIPSE V2 W'S MONOSUIT 20K

The ECLIPSE V2 Monosuit is the obvious choice for the backcountry rider who sets high standards and prefers an aggressive design.

The lightweight shell construction of ECLIPSE V2 is made of the 300D Nylon Canvas material. Together with the YKK Aquaguard front zipper, this material provides the durability required for aggressive tree riding without compromising on flexibility and comfort. Exposed areas are equipped with reinforcement fabric. The wind- and waterproof membrane "ELEVENT 20K" is coated to the outer fabric, which gives it a very flexible feeling during both trail and backcountry riding. To maximize airflow and breathability, the ECLIPSE V2 has also been fitted with ventilation zips in the armpit areas and dual ventilation channels in the back. In short, the ECLIPSE V2 is a very good monosuit that gives you extremely good value for your money.

- > OUTER SHELL MADE OF 300D NYLON CANVAS
- > 20 000 MM WATER COLUMN
- > 20 000 G/M2 BREATHABILITY
- > SEALED SEAMS
- > LONG YKK AQUAGUARD FRONT ZIPPER
- > DROP SEAT SYSTEM IN THE BACK (WOMEN'S)

FLEX W'S MONOSUIT

The Flex Monosuit is made to be the smoothest and most comfortable snowmobile monosuit in our range. By using a laminated outer fabric with four-way stretch, we achieve exactly this result.

This monosuit is the obvious choice for you who ride actively and don't want to let anything stand in the way of your continued development in snowmobile riding. In order to efficiently ventilate moisture, the monosuit have been equipped with ventilation zippers in the armpits and on the thighs. The knees and leg openings have been equipped with a lightweight and flexible reinforcement material that can withstand almost all imaginable stress. Since the garment is an uninsulated shell model, it gives the opportunity to dress according to the outside temperature of the day. This provides a versatile garment that can be used for a large part of the season. In short, a truly awesome monosuit for both active trail riding as well as intense backcountry riding where maximum mobility is the highest priority.

ROCKET V2 W'S MONOSUIT 30K

The brand-new ROCKET V2 monosuit offers more than any other competitor in the same price range.

The lightweight shell construction of ROCKET V2 is made of the 300D Nylon Canvas material. Together with the YKK Aquaguard front zipper, this material provides the durability required for aggressive tree riding without compromising on flexibility and comfort. The "ELEVENT 30K" membrane has an incredible WP of 30,000 mm. One of the strongest reinforcement materials on the market, SuperFabric® has been used in exposed areas. To maximize airflow and ensure that moisture is ventilated, the monosuit has dual ventilation zippers at the back which can be closed during the coldest days. The laser-cut breathing holes in the collar can, in addition to being a nice detail, be used in bad weather like a face mask.

- > OUTER SHELL MADE OF 300D NYLON CANVAS
- > 30 000 MM WATER COLUMN
- > 20 000 G/M2 BREATHABILITY
- > SUPERFABRIC IN EXPOSED AREAS

VERNAL V2 W'S JACKET

AMQ Vernal stands for flexibility, warmth and comfort-all the features needed for a wonderful day on the trails.

The Vernal V2 jacket is the ultimate choice for the rider with a calmer riding style and that is looking for a warm and comfortable snowmobile experience. The Startex fabric with a water column of 10 000 mm keeps water out, while the 8 000 g/m²/24h breathability contributes to good comfort. The jacket also has a detachable hood, comfortable lycra cuffs with thumbgrip and ventilation zips in the sides, stretching all the way from the front to the back. Furthermore, the Vernal V2 comes with a detachable insulated inner jacket that also can be worn separately-you basically get two jackets for the price of one!

ASPECT W'S JACKET

Aspect, our best snowmobile jacket to date in terms of technical specifications. The jacket's design has been inspired by alpine skiing, with straight and symmetrical lines.

The lightweight shell construction is made in 300D Nylon Canvas, which is a both flexible and durable fabric. This material provides the durability required for aggressive forest riding but without sacrificing the mobility you need to take your riding to the next level. A lightweight and flexible reinforcement material has been used on exposed areas such as the elbows. The water column in the "ELEVENT 30K" membrane is an incredible 30,000 mm. This membrane is coated against the outer fabric, which gives it a very flexible feeling during both trail- and freeriding. To maximize the airflow and ensure moisture wicking, the jacket has also been equipped with double ventilation channels in the back and ventilation zippers in the armpits.

- > OUTER SHELL MADE OF 300D NYLON CANVAS

A close-up photograph of a person's lower leg and foot in winter gear. The person is wearing black leggings, a black sock with orange stripes and a logo, and a dark grey or black ski boot. They are holding the heel of the boot with their hand, possibly adjusting the fit or laces. The background is a snowy, out-of-focus landscape. The text 'ACCES-SORIES' is overlaid in large, white, sans-serif font across the bottom half of the image.

ACCES- SORIES

MERINO BASE LAYERS

The Amoq 100% Merino Base Layer is a very warm (285gsm) underwear and the perfect base layer for all kind of activities, especially during those chilly days. This base layer is designed to be closest to your skin during low- to medium-intensity activities. Merino wool naturally offers a wide range of practical features- it will keep you warm during cold days and offer maximum moisture wicking properties during sweaty days. It is also anti-bacterial by nature, meaning that you don't have to wash it after every use, which makes it more eco-friendly as well as more practical.

SNOWMOBILE SOCKS

These socks are designed with only one thing in mind; Snowmobiling. The AMOQ snowmobile socks are made of 100% moisture-wicking polyester, that is stitched in a way which will allow moisture and sweat to get away from your feet. This stitching method allows you to keep warm from morning to evening when riding snowmobile. You have thicker material under the foot (where sweat comes from) and thinner material with more ventilation on top (where the heat goes).
