

A rider in a high-visibility yellow and black suit and helmet is shown from a low angle, riding a snowmobile through a snowy forest. The rider is wearing a helmet with a clear visor and a jacket with bright yellow accents. The snowmobile is dark-colored with blue accents. The background is a dense forest of evergreen trees. A large orange diagonal shape is overlaid on the left side of the image.

COLLECTION
2026

UNLIMITED PASSION

The stunning colours, blackest black and highly finished details combined with great technical materials take your adventure to a completely new level! Founded in 2021 AMOQ is active, fast and full of excitement. The brand is inspired by a passion for snow and snow activities. Sunny frosty days in the rocky mountains, the northern lights and the call of powder snow.

Products combine comfort and style in the best possible way. Whether you're riding a snowmobile, scaling mountains, going skiing, snowboarding or just exploring the city life AMOQ keeps you looking stylish and feeling comfortable in all conditions. The versatile collection includes helmets, goggles, monosuits, jackets, pants and gloves for men and women.

High-quality products are equipped with the best technical features which you can rely on in all kinds of weather conditions. The unique price-quality ratio of the collection makes quality and fashionable products available for all. Whether you are an enthusiast or a professional, you'll find the most stylish products in the AMOQ collection, which are always in line with the hottest trends of the season. Be brave, live in the moment and prepare yourself for possibly the best day ever with your brand new AMOQ product!

MATERIAL DETAILS

ELEVENT

The ELEVENT membranes are specifically developed to beat the elements, with breathability and ventilation always a priority in combination with waterpillar. The basic ELEVENT membrane offers 10 000 mm waterpillar and 10 000 g/m² breathability. The Mid level ELEVENT membranes, 15K and 20K, offer 15 000mm and 20 000 mm waterpillars resp. 15 000g/m² and 20 000 g/m² breathability. The top level membrane ELEVENT 30K has a waterpillar of a whopping 30 000 mm, while the breathability is 20 000 g/m².

SuperFabric®

SuperFabric® technology starts with a fabric and overlays it with tiny plates ("guard plates") in a specific arrangement. The gaps between guard plates allow complete flexibility. The geometry, thickness, and size of the guard plates, as well as the fabric, can be varied depending on the desired attributes. SuperFabric® materials are designed to deliver a range of performance features such as abrasion resistance, stain resistance, quick drying, weight reduction and more.

SKIN FIT

A technology used to secure glove linings. Where used the lining will remain firmly attached and not follow your hand when removed.

INNOBORNE The Optimal Insulation 100% OLEFIN

An insulating material capable of retaining heat longer than even wool yet is light weight, quick drying and transports moisture efficiently away from the body. Consist of 100% Olefin / Polypropylene.

NUDUD is a new innovative high precision "touchscreen solution" that allows you to keep your gloves on in all situations, both on and off your motorcycle/snowmobile. The precision is second to none. Find more information at nudud.se

HELMETS

FRICITION MIPS CARBON

Time to level up with our brand-new Friction MIPS Carbon helmet!

The Friction MIPS Carbon helmet offers ground-breaking performance and extremely low weight combined with awesome looks and high-class comfort. A design masterpiece made of high-performance carbon, with a weight of just 950g in size Medium. The ventilation channels are designed to offer perfect cooling in the summer, without getting too cold in the winter. To keep you safe in all situations, we have equipped the Friction helmets with a MIPS® Brain Protection System (BPS), which is a class-leading protection feature that helps prevent rotational related injuries such as concussions. This is probably one of the best helmets on the market at this price point.

- > D-RING BUCKLE
- > WASHABLE INTERIOR
- > CARBON FIBRE OUTER SHELL
- > LOW WEIGHT
 - = SAVE ENERGY
- > ECE 22.06 APPROVED
- > 950G +/- 50G (MEDIUM)

GOOGLES

BURNER HEATED GOGGLES

Electric Heating, Strong Anti-Fog Experience

The upper and lower magnetic conductive contacts in the middle ensure smooth circuit. Magnetic sides locks, keep the lens in place. The same frame can match with both heated lens and regular lens without heated.

- > MATERIAL TPU / PC / FABRIC
- > WEIGHT 189.8 G
- > STRAPS 45 MM / ANTI-SLIP

CODE	PRODUCT	LENS	EUR	SEK	NOK
645-261305-1	Magnetic Dual Lens	Clear	239,00	2599,00	2699,00
645-261305-2	Magnetic Dual Lens	Yellow	239,00	2599,00	2699,00
645-261305-5	Magnetic Dual Photochromatic Lens	Clear	279,00	2999,00	3199,00

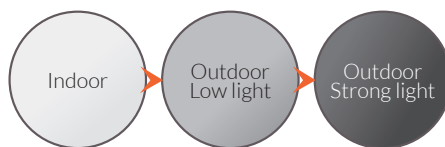

Heated Anti-Fog

The internal electric heating elements raise the surface temperature of the lenses, effectively melting frost or ice and preventing condensation from forming fog on the lens surface.

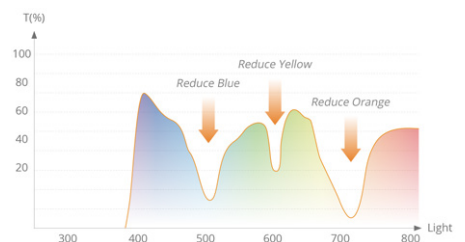

Performance

Electric heated lens always keep our eyesight clear, never fogging up. Offering customers great sports experience.

Power	Lens Temp	Power Light	Current Intensity	Battery Life
High	35-41.6 C	Red	100%	~7h
Middle	35-40 C	Green	60%	~12h
Low	35-37.8 C	Blue	30%	~24h

How Photochromic Lens Works

Advanced photochromic materials allow the lens to automatically change color under different lights conditions. The lens color will become darker under stronger light, and becomes transparent indoors, always provide you comfortable and soft vision.

Performance

Photochromic lens eliminate the need to frequently change goggles or lenses, allowing you to enjoy a comfortable and gentle view in various lighting conditions with just one pair of goggles.

VISION VENT + SNOWMOBILE GOGGLES

Take your riding to the next level with the frameless AMOQ Vision snowmobile goggles.

The Vision goggles comes with flexible and comfortable frame together with a magnetic lens technology as standard. This allows you to quickly change your lens when you are out riding and the weather changes. The Vision goggles also features a triple density foam where the inner layer is shock absorbing and the outer is moisture-wicking. To really make sure you don't get fog in your vision, the Vision goggles is equipped with a Vent+ dual lens type which allows a high airflow for maximum sight. A highly competitive goggle that have passed rough testing deeply in the Scandinavian forests with the highest degree!

MENS OUTERWEAR

DYNAMIC MONOSUIT

A perfect entry-level monosuit for both trail riding lovers and deep snow adrenaline junkies.

The shell construction allows you to choose the level of warmth by yourself, by adding extra layers of clothing underneath. This makes the monosuit more versatile when it can be used both during those cold winter weeks and warmer spring riding days. The thigh-high legs zippers make it easier to take your snowmobile boots on and off. They can also act as ventilation zippers as they open from both top and bottom. Probably the best product currently on the market in this price segment.

- > LAMINATED 300D POLYESTER FABRIC
- > 10 000 MM WATERPILLAR
- > 10 000 G/M2 BREATHABILITY
- > SEALED SEAMS
- > ISOLATING ETAFOAM ON KNEES AND BOTTOM

ECLIPSE V3 MONOSUIT

The ECLIPSE V3 Monosuit is the obvious choice for the backcountry rider who sets high standards and values a modern design.

The lightweight shell construction of ECLIPSE V3 is made of the 300D Nylon Canvas material. Together with the YKK Aquaguard front zipper, this fabric provides the durability required for aggressive tree riding without compromising on flexibility and comfort. Exposed areas are equipped with a new reinforcement fabric that does not collect snow. The wind- and waterproof membrane "ELEVENT 30K" is laminated to the outer fabric, which gives it a very flexible feeling during both trail and backcountry riding. To maximize airflow and breathability, the ECLIPSE V3 has also been fitted with ventilation zips in the armpit areas, inner thighs and on the upper back.

- > OUTER SHELL MADE OF 300D NYLON CANVAS
- > 30 000 MM WATER COLUMN
- > 10 000 G/M2 BREATHABILITY
- > SEALED SEAMS
- > ISOLATING ETAFOAM ON KNEES AND BOTTOM
- > LONG YKK AQUAGUARD FRONT ZIPPER
- > ADJUSTABLE & DETACHABLE BRACES
- > ADJUSTABLE WAIST
- > REINFORCEMENT FABRIC IN EXPOSED AREAS
- > VENTILATION ZIPS IN ARMPITS, INNER THIGHS AND ON UPPER BACK
- > ELASTIC INNER CUFFS WITH LASER CUT THUMBGRIP
- > DETACHABLE HOOD
- > ALUMINUM D-RING

FLEX LIGHT MONOSUIT

The FLEX LIGHT MONOSUIT is a lighter version of our popular FLEX MONOSUIT. It is probably the smoothest and most comfortable monosuit in our collection thanks to the Ribtex outer fabric with stretch.

The FLEX LIGHT monosuit is the ideal choice for avid snowmobilers who prioritize an active riding style and seek uncompromised progression. Designed to efficiently manage moisture, the FLEX LIGHT features long ventilation zippers both in the front and the back. The cargo pockets on the thighs also feature a smart ventilation construction. Additionally, the elbows, knees and shoulders are reinforced with our brand new, light and strong ANTIRUB fabric. The laser-cut breathing holes in the collar can, in addition to being a nice detail, be used in bad weather as a face mask. Apart from the upper body that has a light 60g insulation, the FLEX LIGHT is a shell model that allows for adaptive dressing based on the temperature of the day, making it a versatile model from autumn to spring for both dynamic trail riding and intense backcountry expeditions!

ROCKET V3 MONOSUIT ELEVENT 20K

The brand-new ROCKET V3 monosuit offers more than any other competitor in its price segment.

The lightweight shell construction of ROCKET V3 is made of a new, soft and light 300D Nylon Canvas material. Together with a brace construction in neoprene, this material provides high comfort, flexibility and breathability. Exposed areas are equipped with a new reinforcement fabric that does not collect snow. To maximize airflow and breathability, ROCKET V3 has, in addition to the ventilation zip on the upper back, ventilation zips stretching from the waist along the sides and underarms all the way to the sleeve ends. The upper chest, shoulders and upper arms have been equipped with a light 60g insulation to protect against the cold without being bulky. Another new feature for this third generation ROCKET is also the isolating etafoam in the bottom.

- > OUTER SHELL IN 300D NYLON CANVAS
- > 20 000 MM WATER COLUMN

ARCTIC MONOSUIT

Brave the cold in style and comfort with the Arctic Monosuit. Designed for adventurers who refuse to let harsh weather hold them back, this all-in-one suit is your go-to for staying warm in extreme temperatures.

Featuring 250g of premium insulation, the Arctic Monosuit provides unbeatable warmth without compromising on mobility. Multiple strategically placed pockets offer ample storage for your essentials, ensuring easy access on the go. Reflective details add a touch of safety, enhancing visibility in low-light conditions.

Whether you're exploring snowy trails, ice fishing or just embracing winter's chill, the Arctic Monosuit keeps you comfortable, protected, and prepared. Stay warm. Stay seen. Conquer the Arctic.

VERNAL V2 JACKET

AMQ Vernal stands for flexibility, warmth and comfort-all the features needed for a wonderful day on the trails.

The Vernal V2 jacket is the ultimate choice for the rider with a calmer riding style and that is looking for a warm and comfortable snowmobile experience. The Startex fabric with a water column of 10 000 mm keeps water out, while the 8 000 g/m²/24h breathability contributes to good comfort. The jacket also has a detachable hood, comfortable lycra cuffs with thumbgrip and ventilation zips in the sides, stretching all the way from the front to the back. Furthermore, the Vernal V2 comes with a detachable insulated inner jacket that also can be worn separately-you basically get two jackets for the price of one!

RANGER JACKET

The Amoq Ranger Jacket, featuring a detachable inner jacket in soft shell, is designed for the most demanding rides and combines rugged durability with advanced technology to keep you warm and dry through snowstorms and freezing temperatures.

Crafted from durable 300D Nylon fabric with 30K WP, this jacket offers resistance to wind and water, ensuring you stay dry even in the heaviest snow and slush. The insulated interior traps heat while maintaining breathability, preventing overheating during intense rides. The detachable inner jacket provides additional warmth on extra-cold days but can be easily removed for milder temperatures. The inner jacket can also be worn alone as a stylish casual wear.

The Ranger Jacket has all the features of a modern snowmobile jacket plus loads of reflective details and pockets and storage solutions for gear, essentials, and tools.

RANGER PANTS

ELEVENT 30K

The Amoq Ranger Pants are designed for the most demanding rides and combines rugged durability with advanced technology to keep you warm and dry through snowstorms and freezing temperatures.

Crafted from durable 300D Nylon fabric with 30K WP, the Ranger Pants are designed to keep you dry and shielded from wind, snow, and slush. The 120g insulation locks in heat while maintaining breathability, ensuring you stay warm during long rides without overheating. For added comfort and protection, the pants are equipped with an airmesh covered ETAFOAM on the knees and seat areas, offering extra cushioning and insulation where you need it most. This material not only provides superior impact absorption but also keeps critical areas warm and protected from the cold, even in the most extreme conditions.

The Ranger Pants also feature strategically placed reinforced fabrics in high-exposure areas such as the inner legs, knees, and seat, providing superior durability and protection from abrasion, snow, and ice.

To enhance comfort and fit, the Ranger Pants are designed with long leg zippers for easy on and off, as well as increased ventilation when needed. The leg length adjustment feature allows for a customizable fit to accommodate different body types or varying snowmobile boots, ensuring a secure and comfortable ride in all conditions.

For convenience, the Ranger Pants are equipped with cargo pockets on the thighs, offering plenty of storage space for essential tools, snacks, or other gear you need quick access to while on the trail.

AMOO

RACING

We asked ourselves; How do we make the best possible snowcross clothing? The answer was easy.

In racing it is all about small margins, from starting line to finish line. Because of that we have been testing our gear properly together with best snowcross teams in Finland. We are of course super proud of this partnership and we can with confidence say these products really work in reality, not just in a testing facility.

APEX RACING PIT COAT

The perfect pit coat for all occasions.

Whether you need it for pure racing or to have something quick to put on when you fuel up your snowmobile at the mountain cabin, the APEX RACING PIT COAT with membrane, sealed seams and 200g insulation will do it for you! One of the absolute best products in our portfolio, in terms of versatility and value for money.

WOMENS OUTERWEAR

DYNAMIC W'S MONOSUIT

A perfect entry-level monosuit for both trail riding lovers and deep snow adrenaline junkies.

The shell construction allows you to choose the level of warmth by yourself, by adding extra layers of clothing underneath. This makes the monosuit more versatile when it can be used both during those cold winter weeks and warmer spring riding days. The thigh-high legs zippers make it easier to take your snowmobile boots on and off. They can also act as ventilation zippers as they open from both top and bottom. Probably the best product currently on the market in this price segment.

- > LAMINATED 300D POLYESTER FABRIC
- > 10 000 MM WATERPILLAR
- > 10 000 G/M2 BREATHABILITY
- > SEALED SEAMS
- > ISOLATING ETAFOAM ON KNEES AND BOTTOM

ROCKET V3 W'S MONOSUIT

The brand-new ROCKET V3 monosuit offers more than any other competitor in its price segment.

The lightweight shell construction of ROCKET V3 is made of a new, soft and light 300D Nylon Canvas material. Together with a brace construction in neoprene, this material provides high comfort, flexibility and breathability. Exposed areas are equipped with a new reinforcement fabric that does not collect snow. To maximize airflow and breathability, ROCKET V3 has, in addition to the ventilation zip on the upper back, ventilation zips stretching from the waist along the sides and underarms all the way to the sleeve ends. The upper chest, shoulders and upper arms have been equipped with a light 60g insulation to protect against the cold without being bulky. Another new feature for this third generation ROCKET is also the isolating etafoam in the bottom.

- > OUTER SHELL IN 300D NYLON CANVAS
- > 20 000 MM WATER COLUMN
- > 20 000 G/M2 BREATHABILITY
- > SEALED SEAMS
- > LONG YKK AQUAGUARD FRONT ZIPPER

VERNAL V2 W'S JACKET

AMQ Vernal stands for flexibility, warmth and comfort-all the features needed for a wonderful day on the trails.

The Vernal V2 jacket is the ultimate choice for the rider with a calmer riding style and that is looking for a warm and comfortable snowmobile experience. The Startex fabric with a water column of 10 000 mm keeps water out, while the 8 000 g/m²/24h breathability contributes to good comfort. The jacket also has a detachable hood, comfortable lycra cuffs with thumbgrip and ventilation zips in the sides, stretching all the way from the front to the back. Furthermore, the Vernal V2 comes with a detachable insulated inner jacket that also can be worn separately-you basically get two jackets for the price of one!

- > STARTEX OUTER FABRIC
- > 10 000 MM WATER COLUMN
- > 8 000 G/M² BREATHABILITY
- > SEALED SEAMS
- > DETACHABLE INNER JACKET (100G INSULATION)

FORCE GLOVES

The Force Gloves are designed for snowmobilers who demand performance and durability.

Crafted with flexible neoprene, they offer weather resistance and a snug fit. The Amara palm enhances durability, while silicone prints provide superior grip on handlebars in any condition. For added comfort and flexibility, the gloves feature coated elastic Lycra in the fourchettes, ensuring natural finger movement. An adjustable wrist strap allows for a secure and personalized fit, keeping the gloves in place during every ride.

TORQUE GLOVES

The Torque Gloves are designed for snowmobilers seeking flexibility, durability, and grip.

Made from flexible neoprene, these gloves offer a combination of weather resistance and comfort. The lightly padded Amara palm provides optimal cushioning and shock absorption while maintaining a firm grip on the handlebars. For a secure and personalized fit, the Velcro wrist closure ensures the gloves stay in place during intense rides, keeping snow and cold out. The Torque Gloves are the perfect choice for riders who need a reliable, comfortable, and controlled experience on every snowmobile adventure.

MERINO BASE LAYERS

The Amoq 100% Merino Base Layer is a very warm (285gsm) underwear and the perfect base layer for all kind of activities, especially during those chilly days. This base layer is designed to be closest to your skin during low- to medium-intensity activities. Merino wool naturally offers a wide range of practical features- it will keep you warm during cold days and offer maximum moisture wicking properties during sweaty days. It is also anti-bacterial by nature, meaning that you don't have to wash it after every use, which makes it more eco-friendly as well as more practical.

- > 100% MERINO WOOL
- > 285 GSM
- > GREAT MOISTURE WICKING CAPABILITIES

SNOWMOBILE SOCKS

These socks are designed with only one thing in mind; Snowmobiling. The AMOQ snowmobile socks are made of 100% moisture-wicking polyester, that is stitched in a way which will allow moisture and sweat to get away from your feet. This stitching method allows you to keep warm from morning to evening when riding snowmobile. You have thicker material under the foot (where sweat comes from) and thinner material with more ventilation on top (where the heat goes).
