UNLIMITED PASSION

The stunning colours, blackest black and highly finished details combined with great technical materials take your adventure to a completely new level! Founded in 2021 AMOQ is active, fast and full of excitement. The brand is inspired by a passion for snow and snow activities. Sunny frosty days in the rocky mountains, the northern lights and the call of powder snow.

Products combine comfort and style in the best possible way. Whether you're riding a snowmobile, scaling mountains, going skiing, snowboarding or just exploring the city life AMOQ keeps you looking stylish and feeling comfortable in all conditions. The versatile collection includes helmets, goggles, monosuits, jackets, pants and gloves for men and women.

High-quality products are equipped with the best technical features which you can rely on in all kinds of weather conditions. The unique price-quality ratio of the collection makes quality and fashionable products available for all. Whether you are an enthusiast or a professional, you'll find the most stylish products in the AMOQ collection, which are always in line with the hottest trends of the season. Be brave, live in the moment and prepare yourself for possibly the best day ever with your brand new AMOQ product!

MATERIAL DETAILS

The ELEVENT membranes are specifically developed to beat the elements, with breathability and ventilation always a priority in combination with waterpillar. The basic ELEVENT membrane offers 10 000 mm waterpillar and 10 000 g/m² breathability. The Mid level ELEVENT membranes, 15K and 20K, offer 15 000mm and 20 000 mm waterpillars resp. 15 000g/m² and 20 000 g/m² breathability. The top level membrane ELEVENT 30K has a waterpillar of a whopping 30 000 mm, while the breathability is 20 000 g/m².

SuperFabric® technology starts with a fabric and overlays it with tiny plates ("guard plates") in a specific arrangement. The gaps between guard plates allow complete flexibility. The geometry, thickness, and size of the guard plates, as well as the fabric, can be varied depending on the desired attributes. SuperFabric® materials are designed to deliver a range of performance features such as abrasion resistance, stain resistance, quick drying, weight reduction and more.

A technology used to secure glove linings. Where used the lining will remain firmly attached and not follow your hand when removed.

An insulating material capable of retaining heat longer than even wool yet is light weight, quick drying and transports moisture efficiently away from the body. Consist of 100% Olefin / Polypropylene.

NUDUD is a new innovative high precision "touchscreen solution" that allows you to keep your gloves on in all situations, both on and off your motorcycle/snowmobile. The precision is second to none. Find more information at nudud.se

HELMETS

FRICITION MIPS CARBON

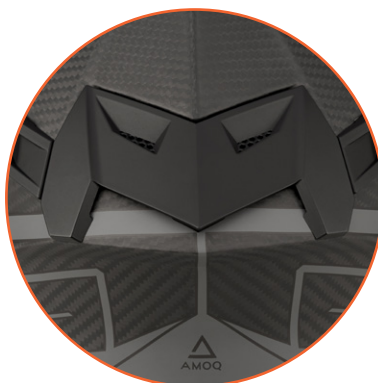

Time to level up with our brand-new Friction MIPS Carbon helmet!

The Friction MIPS Carbon helmet offers ground-breaking performance and extremely low weight combined with awesome looks and high-class comfort. A design masterpiece made of high-performance carbon, with a weight of just 950g in size Medium. The ventilation channels are designed to offer perfect cooling in the summer, without getting too cold in the winter. To keep you safe in all situations, we have equipped the Friction helmets with a MIPS® Brain Protection System (BPS), which is a class-leading protection feature that helps prevent rotational related injuries such as concussions. This is probably one of the best helmets on the market at this price point.

- > D-RING BUCKLE
- > WASHABLE INTERIOR
- > CARBON FIBRE OUTER SHELL
- > LOW WEIGHT = SAVE ENERGY
- > ECE 22.06 APPROVED
- > 950G +/- 50G (MEDIUM)
- > MIPS® BRAIN PROTECTION SYSTEM
- > PREPARED FOR A BREATH BOX TO BE MOUNTED

Heated Anti-Fog

The internal electric heating elements raise the surface temperature of the lenses, effectively melting frost or ice and preventing condensation from forming fog on the lens surface.

Performance

Electric heated lens always keep our eyesight clear, never fogging up. Offering customers great sports experience.

How Photochromic Lens Works

Advanced photochromic materials allow the lens to automatically change color under different lights conditions. The lens color will become darker under stronger light, and becomes transparent indoors, always provide you comfortable and soft vision.

Performance

Photochromic lens eliminate the need to frequently change goggles or lenses, allowing you to enjoy a comfortable and gentle view in various lighting conditions with just one pair of goggles.

VISION VENT + SNOWMOBILE GOGGLES

Take your riding to the next level with the frameless AMOQ Vision snowmobile goggles.

The Vision goggles comes with flexible and comfortable frame together with a magnetic lens technology as standard. This allows you to quickly change your lens when you are out riding and the weather changes. The Vision goggles also features a triple density foam where the inner layer is shock absorbing and the outer is moisture-wicking. To really make sure you don't get fog in your vision, the Vision goggles is equipped with a Vent+ dual lens type which allows a high airflow for maximum sight. A highly competitive goggle that have passed rough testing deeply in the Scandinavian forests with the highest degree!

CONCEPT MONOSUIT

NEW

The Concept Monosuit with its radical sublimated design turns heads from trail to treeline, while the rugged construction keeps the elements out and the heat in.

Engineered for mobility and durability, Concept delivers the perfect balance of weather protection, comfort, and style. With 150gsm insulation, smart ventilation, and a rider-focused fit, it's ready for deep-powder missions, long trail days, and everything between. If you're looking for a bang-for-the-buck monosuit that punches well above its price point, look no further. The Concept packs standout looks, serious performance, and unbeatable value into one suit—so you can ride harder, stay drier, and look sharper doing it. Built to stand out, priced to make sense.

- > 300D POLYESTER OUTER FABRIC
- > 10 000 MM WATERPILLAR
- > 10 000 G/M2 BREATHABILITY
- > 150G INSULATION
- > ISOLATING ETAFOAM ON KNEES AND BOTTOM
- > ADJUSTABLE & DETACHABLE BRACES
- > ADJUSTABLE LEG LENGTH
- > THIGH HIGH ZIPPERS IN THE LEGS
- > VENTILATION ZIPS IN ARMPITS AND INNER THIGHS
- > DETACHABLE HOOD
- > ELASTIC INNER CUFFS WITH THUMBGRIP
- > SNOWLOCKS IN LEG OPENINGS
- > ALUMINUM D-RING

DYNAMIC MONOSUIT

Perfect entry-level monosuit for both trail riding lovers and deep snow adrenaline junkies. The shell construction allows you to choose the level of warmth by yourself, by adding extra layers of clothing underneath. This makes the monosuit more versatile when it can be used both during those cold winter weeks and warmer spring riding days. The thigh-high legs zippers make it easier to take your snowmobile boots on and off. They can also act as ventilation zippers as they open from both top and bottom. Probably the best product currently on the market in this price segment.

FLEX LIGHT V2 MONOSUIT NEW

The Flex Light V2 Monosuit builds on the proven comfort and agility of the original Flex Light, delivering one of the smoothest, most effortless riding experiences in our collection. Its light, stretch-ready construction gives active riders the mobility they need for technical trail carving and demanding backcountry terrain.

Made for snowmobilers who ride hard and stay on the move, the Flex Light V2 is designed to handle moisture efficiently during high-output sessions. Ventilation zippers at the front and back, along with ventilated cargo pockets on the thighs, work together to keep airflow steady and conditions comfortable throughout the ride. The collar's laser-cut breathing holes add a touch of smart functionality, doubling as a quick face mask when the weather turns. With 60g insulation in the upper body and a shell design throughout the rest, the Flex Light V2 adjusts easily to temperature swings and varied riding styles—just layer up or down as the day demands. From early-season trail rides to springtime exploration, the Flex Light V2 Monosuit delivers versatile performance, dependable comfort, and the freedom to ride exactly the way you want.

- > OUTER FABRIC IN RIBTEX LIGHT FABRIC
- > 15 000 MM WATER COLUMN
- > 10 000 G/M2 BREATHABILITY
- > SEALED SEAMS
- > UPPER BODY (SHOULDER, CHEST AND UPPER ARMS) WITH 60G INSULATION
- > ISOLATING ETAFOAM ON KNEES AND BOTTOM
- > LONG YKK AQUAGUARD FRONT ZIPPER
- > REINFORCEMENT MATERIAL IN LEG OPENINGS
- > ADJUSTABLE BRACES IN STURDY, MOISTURE-WICKING 3D MESH
- > ELASTIC INNER CUFFS WITH LASER CUT THUMBGRIP
- > DETACHABLE HOOD

FLEX LIGHT MONOSUIT

The FLEX LIGHT MONOSUIT is a lighter version of our popular FLEX MONOSUIT. It is probably the smoothest and most comfortable monosuit in our collection thanks to the Ribtex outer fabric with stretch.

The FLEX LIGHT monosuit is the ideal choice for avid snowmobilers who prioritize an active riding style and seek uncompromised progression. Designed to efficiently manage moisture, the FLEX LIGHT features long ventilation zippers both in the front and the back. The cargo pockets on the thighs also feature a smart ventilation construction. Additionally, the elbows, knees and shoulders are reinforced with our brand new, light and strong ANTIRUB fabric. The laser-cut breathing holes in the collar can, in addition to being a nice detail, be used in bad weather as a face mask. Apart from the upper body that has a light 60g insulation, the FLEX LIGHT is a shell model that allows for adaptive dressing based on the temperature of the day, making it a versatile model from autumn to spring for both dynamic trail riding and intense backcountry expeditions!

ROCKET V3 MONOSUIT

The brand-new ROCKET V3 monosuit offers more than any other competitor in its price segment.

The lightweight shell construction of ROCKET V3 is made of a new, soft and light 300D Nylon Canvas material. Together with a brace construction in neoprene, this material provides high comfort, flexibility and breathability. Exposed areas are equipped with a new reinforcement fabric that does not collect snow. To maximize airflow and breathability, ROCKET V3 has, in addition to the ventilation zip on the upper back, ventilation zips stretching from the waist along the sides and underarms all the way to the sleeve ends. The upper chest, shoulders and upper arms have been equipped with a light 60g insulation to protect against the cold without being bulky. Another new feature for this third generation ROCKET is also the isolating etafoam in the bottom.

- > OUTER SHELL IN 300D NYLON CANVAS
- > 20 000 MM WATER COLUMN

FLEX LIGHT ANORAK

NEW

The Flex Light Anorak is the agile sibling of our popular Flex Light Jacket—built for riders who value maximum mobility without sacrificing protection. Thanks to its Ribtex Light outer fabric, it stands out as one of the most comfortable and flexible garments in our entire collection—perfect for riders who value effortless movement and an unrestricted feel.

Built for snowmobilers who ride actively and push for progression, the Flex Light Anorak is engineered to handle moisture efficiently during high-intensity days. Its smart ventilation solutions help maintain comfort when the pace or temperature rises, while the anorak construction adds weather protection and a clean, streamlined silhouette ideal for demanding conditions. For durability where it matters most, the elbows are reinforced with our light and strong ANTIRUB fabric, increasing longevity without adding bulk. The laser-cut breathing holes in the collar not only add a distinctive design detail but can also function as a simple face mask in harsh weather. With 60g insulation in the upper body and a shell construction throughout the rest, the Flex Light Anorak adapts easily to a wide range of temperatures. Layer it according to the day's conditions and enjoy reliable performance from early autumn to spring rides—whether you're carving fast trails or tackling technical backcountry terrain.

- > OUTER FABRIC IN RIBTEX LIGHT FABRIC
- > 15 000 MM WATER COLUMN
- > 10 000 G/M2 BREATHABILITY

FLEX LIGHT JACKET

The FLEX LIGHT JACKET is a lighter version of our popular FLEX JACKET. It is probably the smoothest and most comfortable jacket in our collection thanks to the Ribtex Light outer fabric with stretch.

The FLEX LIGHT jacket is the ideal choice for avid snowmobilers who prioritize an active riding style and seek uncompromised progression. Designed to efficiently manage moisture, it features long ventilation zippers both in the front and the back. Elbows and shoulders are reinforced with our brand new, light and strong ANTIRUB fabric. The laser-cut breathing holes in the collar can, in addition to being a nice detail, be used in bad weather as a face mask. Apart from the upper body that has a light 60g insulation, the FLEX LIGHT is a shell model that allows for adaptive dressing based on the temperature of the day, making it a versatile model from autumn to spring for both dynamic trail riding and intense backcountry expeditions!

RANGER JACKET

The Amoq Ranger Jacket, featuring a detachable inner jacket in soft shell, is designed for the most demanding rides and combines rugged durability with advanced technology to keep you warm and dry through snowstorms and freezing temperatures.

Crafted from durable 300D Nylon fabric with 30K WP, this jacket offers resistance to wind and water, ensuring you stay dry even in the heaviest snow and slush. The insulated interior traps heat while maintaining breathability, preventing overheating during intense rides. The detachable inner jacket provides additional warmth on extra-cold days but can be easily removed for milder temperatures. The inner jacket can also be worn alone as a stylish casual wear.

The Ranger Jacket has all the features of a modern snowmobile jacket plus loads of reflective details and pockets and storage solutions for gear, essentials, and tools.

RANGER PANTS

The Amoq Ranger Pants are built for demanding rides, combining rugged durability with advanced technology to keep you warm and dry through snowstorms and freezing temperatures. Made from durable 300D Nylon fabric with 30K WP, the Ranger Pants keep you dry and protected from wind, snow, and slush. The 120g insulation retains heat while maintaining breathability, so you stay warm on long rides without overheating. Airmesh-covered ETAFOAM on the knees and seat adds cushioning and insulation where it matters most, providing impact absorption and extra protection from the cold. Reinforced fabrics in high-exposure areas such as the inner legs, knees, and seat provide added durability and protection against abrasion, snow, and ice. Long leg zippers make the pants easy to put on and remove while adding ventilation when needed. Adjustable leg length ensures a secure, comfortable fit for different body types and snowmobile boots. Cargo thigh pockets provide practical storage for tools, snacks, or other essentials you need quick access to on the trail.

WOMENS OUTERWEAR

CONCEPT W'S MONOSUIT NEW

The Concept Monosuit with its radical sublimated design turns heads from trail to treeline, while the rugged construction keeps the elements out and the heat in.

Engineered for mobility and durability, Concept delivers the perfect balance of weather protection, comfort, and style. With 150gsm insulation, smart ventilation, and a rider-focused fit, it's ready for deep-powder missions, long trail days, and everything between. If you're looking for a bang-for-the-buck monosuit that punches well above its price point, look no further. The Concept packs standout looks, serious performance, and unbeatable value into one suit—so you can ride harder, stay drier, and look sharper doing it. Built to stand out, priced to make sense.

- > 300D POLYESTER OUTER FABRIC
- > 10 000 MM WATERPILLAR

ROCKET V3 W'S MONOSUIT

The brand-new ROCKET V3 monosuit offers more than any other competitor in its price segment.

The lightweight shell construction of ROCKET V3 is made of a new, soft and light 300D Nylon Canvas material. Together with a brace construction in neoprene, this material provides high comfort flexibility and breathability. Exposed areas are equipped with a new reinforcement fabric that does not collect snow. To maximize airflow and breathability, ROCKET V3 has, in addition to the ventilation zip on the upper back, ventilation zips stretching from the waist along the sides and underarms all the way to the sleeve ends. The upper chest, shoulders and upper arms have been equipped with a light 60g insulation to protect against the cold without being bulky. Another new feature for this third generation ROCKET is also the isolating etafoam in the bottom.

YOUTH

METEOR V2 JUNIOR HELMET

Clean design and comfy fit.

The Meteor V2 helmet is an affordable, versatile, and comfortable youth helmet that works great for both motocross and snowmobile riding. The nice-looking shell made of thermoplastic contributes to a low weight, but without compromising on the safety features. The interior is detachable and machine washable.

- > EXTREMELY AFFORDABLE
- > WEIGHT: 1150G +/- 50G
- > REALLY GOOD VENTILATION
- > BUCKLE: DOUBLE D-RINGS
- > DETACHABLE AND WASHABLE INSIDE
- > APPROVED ACCORDING TO ECE 22.06
- > SHELL MADE OF THERMOPLASTIC (ABS)

GLOVES

NOVA V2 GLOVES

The perfect combination of warmth and comfort.

AMOQ Nova V2 gloves are insulated with the moisture wicking and warm INNOBORNE insulation. The palm has a light (30g) insulation to maintain the feeling for the handlebar, while the back of the hand is well insulated (180g) to keep you warm. To beat the elements, the gloves are equipped with a wind- and waterproof ELEVENT membrane. The palm is made of synthetic leather to offer grip and be maintenance free. The fantastic NUDUD system on the right thumb enables smartphone use without having to take your gloves off. Long and adjustable cuff.

MERINO BASE LAYERS

The Amoq 100% Merino Base Layer is a very warm (285gsm) underwear and the perfect base layer for all kind of activities, especially during those chilly days. This base layer is designed to be closest to your skin during low- to medium-intensity activities. Merino wool naturally offers a wide range of practical features- it will keep you warm during cold days and offer maximum moisture wicking properties during sweaty days. It is also antibacterial by nature, meaning that you don't have to wash it after every use, which makes it more eco-friendly as well as more practical.

RAPID BALACLAVA

NEW

Push your limits in cold, windy conditions with the Rapid Balaclava. Its softshell front cuts through the wind, while perforated Lycra in the hood maximizes breathability and ensures a race-ready, aerodynamic fit. Flatlock seams keep friction to a minimum, delivering all-day comfort under your helmet so you can stay focused on speed and performance.

CODE	PRODUCT	COLOUR	SIZE	EUR	SEK	NOK

RUSH BALACLAVA

NEW

Conquer cold, windy rides with the Rush Balaclava. Its softshell front blocks the wind, while a fleece panel over the mouth ensures easy breathing and added warmth, and a neoprene panel over the nose provides extra protection against harsh elements. The elastic fabric in the hood offers breathability and a flexible, comfortable fit, while flatlock seams minimize friction for all-day comfort under your helmet.
